

### Asking Investigation Questions: What more do you want to know?

Now that we have observed and modeled the phenomena in our “Should We” question, we are going to brainstorm investigation questions that we can ask!

Our “Should We” question is \_\_\_\_\_

The phenomena we observed \_\_\_\_\_

5 Socio-ecological Dimensions	Investigation Questions	Data we could collect
<p>What more do we want to know about the <b>species, kinds and behaviors</b> that we observed wondering walks?</p> 		
<p>What more do we want to learn about the <b>relationships</b> that we observed?</p> 		

<p>How can we learn more about the <b>places, lands, &amp; waters</b> where we live?</p> 		
<p>How can we consider time and space (<b>scale</b>) as we conduct our investigations?</p> 		
<p>How does <b>human decision-making</b> affect where we live?</p>
