

LE # 2.A

Preparing for the Outdoors

Plants and animals need food, air, water, and shelter to live healthy lives. Everyone makes or finds these things in different ways - even humans. Think about a plant or animal that lives around your home or in your neighborhood.

What does the plant or animal that you are focusing on need to live a healthy life? Draw or write some ideas in the boxes below:

Food	Air
Water	Shelter

LE # 2.A

Preparing for the Outdoors

Now think about your family.

What does your family need to live a healthy life? Draw or write some ideas in the boxes below:

Food	Air
Water	Shelter
