We Wonder...

What was something that surprised you on your observation walk?

Has anything changed since the last time you did an observation walk? If so, why do you think this was so?

How do you think the weather and season today influenced what you observed? Do you think anything else influenced what you observed today?

We observed (our phenomenon) _____

The season is _____

	Location/Time	Location/Time	Location/Time	What Questions do We Have?
	Weather: _____ Temperature: _____	Weather: _____ Temperature: _____	Weather: _____ Temperature: _____	
Differences What is something you noticed that is different about your observations across locations or time?	Something different we noticed was: _____ We think it was different because : _____ _____ _____ _____			
Similarities What is something similar that you noticed about your observations across locations or time?	Something similar we noticed was: _____ We think it was similar because : _____ _____ _____ _____
